EXPERIENCE

Salon Privé
System Administrator
Jan 2024 - Present | Tivat, Montenegro

As a dedicated System Administrator, I ensure the IT infrastructure runs smoothly and efficiently. My key responsibilities include system maintenance, network administration, user support, and security management. Additionally, I manage AWS and DevOps projects, deploying scalable applications and automating workflows with CI/CD pipelines to enhance system performance and security.

Career Transition
Career Break
Sep 2023 - Mar 2024 | Budva

During my career break, I focused on upskilling as an iOS developer. I immersed myself in studying Swift, UI/UX design, and the latest mobile app development trends. I am now eager to rejoin the workforce and apply my newfound skills to contribute to a dynamic team in the iOS development space.

Maestral Resort & Casino
System Administrator
Jun 2023 - Sep 2023 | On-site

I managed and maintained the IT infrastructure of the hotel and casino, including servers, networks, and systems. My duties included installing and troubleshooting network equipment, administering the Windows server environment, providing technical support, and implementing security measures to protect digital assets.

ByteCraft Solutions
Software Developer (Freelance)
Dec 2017 - Jan 2023 | On-site

At ByteCraft Solutions, I played a key role in developing Python-based software applications. I focused on creating scalable, user-friendly solutions for diverse industries. Despite the company's closure in January 2023, my experience was rich with hands-on projects and collaboration in a forward-thinking technology environment.
